30 Years Of Sustainability in Santa Monica
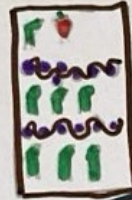

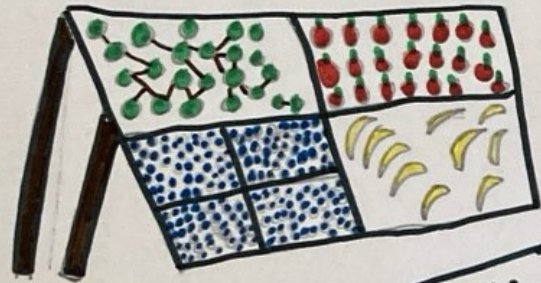

We have more farmers markets and community gardens...

We opened Tongva and Ishire Park...

Every plant is getting what it needs...

We are planting trees...

We don't have as much pollution in air, water, and on land...

Big Blue Bus

We have electric Big Blue Buss...

We are making more bike lanes...

We are composting and recycling...

We are saving and collecting water...

1714   1720

...because of the Sustainability Plan...

We are using solar panels, windmills, and water turbines to generate electricity instead of burning fossil fuels...
