

# NEW CROSSWALK COMING

A new crosswalk will be added to the east side of Broadway at 19th St. Construction is anticipated for August 15–30, 2024.

Broadway and 19th St intersection, looking eastbound (April 2024)

## 1 NEW CROSSWALK

A new crosswalk will be installed on the east leg of the intersection. Yield markings and pedestrian signage will also be added. High visibility crossings can help make pedestrians more visible and reinforce the driver requirement to yield to pedestrians.

## 2 RIGHT TURN ONLY

On 19th St, the north and southbound directions will be right turn only. Plastic bollards will be installed to guide vehicles. This will eliminate collisions between through and left-turning movements.

## 3 EXTEND RED CURB

The red curb near the new crosswalk will be extended. This increases visibility of pedestrians and bicyclists as vehicles approach the crosswalk.

## 4 PARKING REMOVAL

Two parking spaces on the north side of Broadway between 19th St and 19th Ct will be removed to improve visibility at the intersection.

## LOOKING FORWARD

This intersection is part of the upcoming **Broadway Safety Project**. A pedestrian flashing beacon will be added in the near future (est 2025).
