

Street Lighting Modernization Program Package 3 Expect Temporary Sidewalk Closures, and Parking Restrictions

Estimated Duration: February 26, 2024 – End of March 2024
Location: Stewart Street between Colorado Avenue and Olympic Boulevard
Description: Street Lighting Modernization, Conversion from High Voltage to Energy-Efficient LED Lighting
Work Hours: 8:00AM to 6:00PM

Dear Neighbors:

The City of Santa Monica has contracted with International Line Builders (ILB) to convert deteriorated high voltage streetlights to energy-efficient LED streetlights on Stewart Street between Colorado Avenue and Olympic Blvd. This work includes installation of new small size electrical conduit and replacing existing street light fixtures with new LED type fixtures. Construction is expected to start February 26th, 2024, and last approximately until the end of March 2024. Work areas are shown below.

During the construction, restrictions on street parking and sidewalks will occur temporarily. Safety barricades and signage will be provided at work locations. Driveway and building accesses will be maintained. Traffic flow will be maintained. Residential and commercial power service will be uninterrupted and maintained during the project. Power service for street lighting is isolated from residential and commercial power service.

There will be temporary sidewalk closures, and temporary street parking closures. The operation of heavy equipment that is necessary to construct this project will create intermittent loud noise. Please note that the start and completion times/dates of the construction may change due to unforeseen conditions and weather.

For most up to date work schedule and closures, please refer to the project website:

<https://www.santamonica.gov/streetlight-modernization-project-package-3>

We understand this process is inconvenient and we will make every effort to minimize any inconvenience that this work may cause.

Please contact the Construction Manager or Inspector, at the phone number provided below if you have any specific concerns or questions.

Thank you in advance for your patience and understanding.
